

# Innovation to achieve Sustainable Development Goals

*Personal reflections from two decades*

## Guest Speakers

**Dr. KE Seetha Ram**

Visiting Professor, The University of Tokyo;  
Special advisor to East Japan Railways Company;  
and Senior staff, Asian Development Bank Institute

**Dr. Lakshmi Seetha Ram**

MD, Institute of Medical Science,  
The University of Tokyo;  
Board Director, Institute of Sathya Sai Education

Leaders of nations adopted 17 Sustainable Development Goals in September 2015 to “*end poverty, protect the planet, and ensure prosperity for all*”, with specific targets to be achieved by 2030.

Reflecting on their personal and professional experiences in the last two decades, speakers will share with stories relating to goals on *education, health, water, housing, sanitation, climate change, poverty alleviation and partnerships*, innovative ideas and expeditious solutions for public policy and businesses to achieve various targets in the sustainable development goals.

**Entry Free**
